## With the Money-Makers

### For Fall Business.

This is the time to lay plans for fall business. Every progressive business man wants more business than he got last year. Do you? Of course you do. Then, remember that newspaper advertising is the cheapest and best way to increase your business. If you have never tried it, do it now. If you have, try it and are satisfied with it, why not increase your space?

### Not Advertising Alone.

No man whose business methods were wrong ever succeeded by sheer force of advertising. The businesses that have been built up by advertising have been based on sound foundations. —Printers' Ink.

### New Saloon.

Morris Dannheisser's new saloon at No. 12 W. Zarragossa is one of the best equipped in Pensacola. He has put in a large stock of whiskey, wines and liquors, and handles the famous Pabst Beers. Mr. Dannheisser is also doing a good mail order business.

### Making the Most of It.

A small clothing store in Union Square was pretty extensively scorched one morning not long ago, and has since blossomed with red signs. "Burned Out but not Knocked Out," reads one of these. "Scorching hot

bargains—don't be fooled by fake fire sales—this is where the fire started."

### Biggest in Town.

The Gordon & Brown Hardware Company's warehouse on West Garden street will soon be completed, and will be one of the largest warehouses in Pensacola, in fact, it will be nearly as large as the L. & N. freight depot.

### The Word "Free."

The advertising department of the Woman's Magazine of St. Louis, makes the following announcement:

Effective with September issue, the word "Free" will be permitted in advertisements in our columns only when the article advertised as "Free" is absolutely given free. Where any labor or service is required to earn the article advertised, the word "Earned" or the words "Easy earned," "Given away for few hours' work," etc., may be used. Where samples, catalogues, calendars, booklets or literature are sent free to the parties answering the advertisement the word "Free" may be used.

### Beware!

Beware of promising too much. He who receives less than he was led to expect will speak ill of you even though he has received full value for his money.

"I had a running, itching sore on my leg. Suffered tortures. Don't's Juntment took away the burning and itching instantly and quickly, effected permanent cure." C. W. Lenhart, Bowling Green, O.

### Several Steamers Entered.

Several steamers entered port yesterday afternoon. All, however, were compelled to go to quarantine and remain there for fumigation. Two of the steamers were the Amstel from Mobile and the Soperga from Gulfport. The name of the other vessel could not be learned.

### NOTICE.

Mrs. Laura Creary will resume the agency for the "Winona" mills hosiery and will be pleased to have all her old customers and all interested in good hosiery may place orders with her. Phone 147. On receipt of a postal she will be glad to call with line of samples.

## SANITARY WORK AROUND FORT BARRANCAS

Everything Possible Being Done to Prevent Infection—Personal and General News.

### Special to The Journal.

Fort Barrancas, Aug. 26.—Since the yellow fever scare commenced in New Orleans, the military authorities at this place have been leaving nothing undone to prevent a possible spread of the disease to this post should it appear at Pensacola. To that end a detail of men from each of the three companies stationed here, have been working daily under the supervision of Sergeant Garland, of the hospital corps, cleaning out ditches and flooding them with oil, cutting the high grass and weeds and in every way seeking to destroy the fever-breeding mosquito. The work has been done well, and Sergeant Garland has earned for himself a reputation as a most efficient officer. In the event that the fever should reach Pensacola, it is said that the whole garrison will be sent to McRae.

Private Jesse Green is in the hospital being treated for a broken arm. He threw the ball and broke a bone near the elbow of his right arm. Excellent games of ball have been played between Barrancas team and a team from the crew of the dispatch boat Wasp. A large majority of the games were won by Barrancas team, but toward the finish of the series the Wasp managed to take two or three games, one of them of ten innings, by a score of 3 to 2.

Private Dennis Cronin, of Pensacola, who was in the hospital several weeks with malaria, has been returned for duty cured. The twenty second company is now commanded by Lieutenant Taylor, who was recently assigned to the company. Captain Hilton, having left for Fort Monroe, Va., Wednesday to attend the artillery school for three months and Lieut. Watson being away on furlough.

Capt. Leyon, who was commanding officer at this post, left this week for an extended furlough north, and Capt. Pierce, a new arrival from New York, will be commanding officer while Captain Pierce is away. Measure of the men at this post has

been taken for the new olive-drab uniforms. They are by far the swiftest thing in uniform that have been issued to enlisted men and it is said the men here will receive them the coming fall or winter.

Next Tuesday has been designated as field day for the troops here, and a large variety of sports have been arranged to take place on the parade grounds. Prizes of different denominations will be given to the successful competitors and the day will be a holiday.

Captain Cole, quartermaster of this post, left last week on a furlough for points north, and will be gone several weeks.

One desertion is the record for the week. Private Smith took "French leave" a few days since and has not been located. He also took a suit of civilian clothes belonging to a comrade. He is known to have bought a ticket to Nashville, Tenn., and it is said he was in company with Private Taylor, who was given a disability discharge a few weeks ago.

Private Banks, of 22nd Co., has been raised to the rank of corporal. Two deserters from the 70th Co., were brought back Wednesday. They skipped out two weeks ago and were caught at Birmingham, Ala.

## INDIGNANT AT TERMINAL CO'S ACTION

Property Owners at Big Bayou Want to Prevent Dumping of Ballast There.

The residents and inhabitants of Big Bayou are making vigorous complaint at the work which the Terminal Co. is doing in filling up the Bayou along the line of its tressel.

For some time the company has been dumping ballast into the water, filling up between the piling which supports the track and at the rate it is now working it will not be long before only a small passageway is left from the Bayou to the bay.

The Terminal Company did the same thing at Little Bayou and the residents there claim that a great deal of injury was done to that body of water by the interruption of the natural flow of the tides which this work resulted in at that place.

Property owners at Big Bayou believe that the company can be prevented from filling in the Bayou by law and it is quite likely that proceedings will be instituted for the purpose of stopping the work. An injunction will probably be asked for this week and, if the company persists in its present objectionable practice, the case will be fought to a finish in the courts.

## LAUREL HILL

Special to The Journal. Laurel Hill, Aug. 26.—Rev. J. F. Ford and Dr. Roseborough, of Union Springs, Ala., have been holding a series of meetings in the Presbyterian church with good results.

Your correspondent has just returned from a visit to Andalusia, Opp, Samson and other points and is impressed with the belief that cotton crops will prove short. The boll weevil is doing great damage. Corn, peanuts, potatoes and sugar cane crops are very good.

It was our pleasure to meet Mr. A. I. Hogeboom, representative of The Journal, in Florida yesterday. Mr. Hogeboom is a hustler and the right man in the right place.

J. M. Martin is with the Florida team and they are making it lively for the Greenville aggregation.

The power of electricity was fully demonstrated in the vicinity of Florida and Laurel Hill Thursday night. The entire section was lighted up from about 8 until 10 o'clock. There was no damage that we know of with the exception of a little trouble with the wires.
